

INDEX TO VOLUME 3

- Chen Hsiao-yun, Certainty within uncertainty, 115
- Louis H. Y. Chen, C. T. Chong and H. N. Ng, A shortest path problem, 126
- Chern Shiing-shen, Forty years of mathematical studies, 22
- C. T. Chong, Notes on mathematicians: 1. Carl Friedrich Gauss, 6
- _____, Notes on mathematicians: 2. Chern Shiing-shen, 19
- John N. Crossley, What is mathematical logic ?, 3
- Ho Soo Thong, Review of *Statistical Mathematics* by Robert Loveday, 13
- Lam Lay Yong, Review of *Ways to mathematics* by E. E. Alliot and S. A. Adair, 15
- _____, Ch'in Chiu-shao and the Chinese Remainder Theorem, 45
- Lee Peng Yee, Magic squares and doodling, 107
- Y. K. Leong, Notes on mathematicians: 3. John von Neumann, 90
- Lim Chee Lin, Review of *Additional mathematics pure and applied in SI units* by A. Goodman and J. F. Talbert, 83
- H. N. Ng, An elementary problem whose solution can lead to fame: Fermat's last theorem, 54
- Tay Yong Chiang, Review of *Practical Statistics and Probability* by Robert Loveday, 138
- Inter-school mathematical competition 1975, 61
