

EDITORIAL PREFACE

We take pleasure in presenting the *Proceedings of the Singapore Mathematical Colloquium*. The Colloquium, held from 30 May to 3 June, 1977 at the University of Singapore to mark the occasion of the 25th anniversary of the *Society*, was organised by the *Society* with the cooperation of the Ministry of Education, Nanyang University and the University of Singapore.

The *Proceedings* is divided into two parts. Part One on mathematical education appears in this issue and Part Two consisting of research papers on mathematics will be in the December issue. We would like to thank all contributors for their whole-hearted support in submitting their papers for publication.

In the April issue next year we shall resume our usual publication of articles, news and activities of the *Society*, problems and solutions, etc., and we look forward to receiving your contributions.
