

Singapore Mathematical Society Committee for 2008

President

Assoc Prof
Pang Yu Hin

Vice-Presidents

Dr Hang Kim Hoo

Prof Ling San

Prof Zhu Chengbo

Hon Secretary

Assoc Prof
Victor Tan

Hon Treasurer

Dr Chan Yiu Man

Editor

Assoc Prof
Leung Ka Hin

Asst Secretary

Assoc Prof Helmer
Aslaksen

Asst Editors

Dr Duzhin Fedor

Dr Toh Tin Lam

Committee Members

Assoc Prof
Teo Beng Chong

Ms Foo Kum Fong

Dr Ng Kah Loon

Mr Thomas Teo

The Singapore Mathematical Society Logo

The logo is designed by Professor Koh Khee Meng, a past president of the Society, and implemented digitally by Mr Chua En Hao (1999).

Dubbed the “Golden Ribbon of Integration”, the design of the Singapore Mathematical Society (SMS) logo bears the following significance:

It represents the Society’s thrust to serve the interest of the entire mathematical community of Singapore via an integrated approach. The Society organizes and sponsors activities in student enrichment and competitions, teacher training, and mathematical research, and also attempts to promote mathematics to the general public. Most of its activities involve professional mathematicians, teachers and students together, either in their organization or participation. The ribbon signifies the Society’s role in forging the golden ties among all people in Singapore interested in mathematics, and integrating their expertise and contributions for the benefit of the entire community.

The edges of the golden ribbon trace out the acronym of the Society - SMS. The letter “M” is formed within a rectangle, divided according to the golden ratio (approximately 0.618) in length and breadth.

The ribbon is a portrayal of the symbol for the mathematical operation “integration”. The letter “M” forming one edge of the ribbon also represents the symbol, rotated 90 clockwise, for the mathematical operation “summation” which is a discrete analog of integration.
