

Index to Volume 18

Announcement	Singapore Number Theory Workshop 1991	48
Annual Report, 1989		38
Financial Report, 1989		45
Interschool Mathematical Competition 1990		
	Problems	81
	Solutions	85
Problems and Solutions		36 78
<i>Michael Atiyah</i>	The Icosahedron	1
<i>John A. Bather</i>	Uncertainty and sequential choice	13
<i>Alvin Chan, K. J. Mourad</i>	Theoretical computers and diophantine equations	66
<i>Xuming He</i>	Introduction to robust statistics	22
<i>Y. K. Leong</i>	The 31st International Mathematical Olympiad	90
<i>Ma Zheng Min, Lee Peng Yee</i>	An overview of classical integration theory	49
<i>Ng Weng Leong</i>	An investigation into the mathematical theory behind check-digits for the purpose of error-detection	27
<i>John Rigby</i>	A geometrical figure associated with the cycle of sixty years	62
